Some Piain Facts.

Grave errors, injustice, wrongs of greater or less degree, arise from isck of knowledge of the truth, and more frequently from deception.

The most infamous case on record of deception and injustice is the attempt to demonetize silver as a money of final redemption in the United States.

There is no learned judge, skilled lawyer, or court of justice that is capable of reconciling the effort with the constitutional laws that govern the issue of money in this country.

The people have been deceived, officials in power, chosen to administer justice under the laws, have ignored their sworn duty, and given aid to the scheme that has paralyzed industry, reduced property values one-half, and beggared millions.

REPUBLICAN APPROVAL OF BRYAN.

The Pittsburg Dispatch has been one of the bitter papers against Mr. Bryan throughout; but now finds something to commend in him. Mr. Bryan's speech at Omaha on the 14th, on the occasion of dedicating the Nebraska building at the exposition is approved by the Dispatch. The following is the editorial in the Diseatch on the 15th inst.:

WHERE BRYAN IS RIGHT.

The sentiments of W. J. Bryan have The sentiments of W. J. Bryan have rarely called for commendation from The Dispatch. His speech at Omaha, however, is a shining exception to his rule of delivering platitudes and failacies concerning finance, so it is with all the greater pleasure that we note his shill to recognize a great truth and ability to recognize a great truth and state it forcibly. He has undoubtedly come close to the sentiment of the people on the subject of annexation and

The purpose of the war with Spain was so clearly stated in the official utter-ances leading up to it that it could only be misunderstood by jealous Powers in Europe and mercenary jingoes at home.
That purpose was almost unanimously
endorsed by the American people, as
Mr. Bryan understands. To be tempted
into another course because a glorious victory has put a piece of territory in reach or to transform a war for hu-manity into a war for conquest would not only condemn the United States in the eyes of the world, as Mr. Bryan says, of having used hypocrisy to cover greed, but it would condemn the government at Washington of having acted in bad faith with its own people.

The loyal citizens who have responded to their country's call were moved by the desire to free Cuba and avenge the crew of the Maine. They never intended to give their services to the cause of colonizing the Pacific Ocean. The loyal people who remain at home are prepared to cheerfully take up the burden of taxation to support the conflict for the removal of Spanish cruelty, treachery and barbarity from the Western Hemisphere. But none of hem desires to make sacrifices for the purpose of embarking the country upon strange and mischievous policy of and-grabbing.

MR. BRYAN OPPOSED TO CONQUEST.

On Tuesday the 14th, William J. Bryan was the principal speaker at the dedication of the Nebraska building at the Omaha exposition.

He declared himself decidedly on the war issue, claimed the war was for humanity and not for conquest and the extension of United States territory. He said this nation only took up arms when it was compelled to choose between war and servile acquiesence in cruelties which would have been a disgrace to barbarism. He continued:

"If a contest undertaken for the sake of humanity degenerates into a war of conquest, we shall find it difficult to meet the charge of having added hy-pocrisy to greed. Is our national char oter so weak that we cannot withstand the temptation to appropriate the first piece of land that comes within our reach? To inflict upon the enemy all possible harm is legitimate warfare, but shall we contemplate a scheme for the colonization of the Orient merely be cause our fleet won a remarkable victory don a just resistance to European en croachment upon the western hemis phere in order to mingle in the contro

The Ohio Bimetallist published at Bellaire, Ohio, in a long and able article makes the following deductions:

The clearing house banks do less than half the business, based on population, in 1897 than they did in 1869.

They do six billions less actual business, with nearly double the population in 1897 than in 1869.

I tried doctors and various remedies without relief. After taking two bottles of your Vegetable Com-pound, the relief I obtained was truly wonderful. I have now taken several more bottles of your famous medicine, and can say that I am entirely cured. Mrs. HENRY DORR, No. 806 Findley St.,

Cincinnati, Ohio, to Mrs. Pinkham: "For a long time I suffered with chronic inflammation of the womb, pain in abdomen and bearing-down feeling. Was very nervous at times, and so weak I was hardly able to do anything. Was subject to headaches, also troubled with leucorrhosa. After doctoring for many months with different physicians, and getting no relief, I had given up all hope of being well again when I read of the great good Lydia E. Pinkham's Vegetable Compound was doing. I decided immediately to give it a trial. The result was simply past belief. After taking four bottles of Vegetable Compound and using three packages of Sanative Wash I can say I feel like a new woman. I deem it my duty to announce the fact to my fellow sufferers that Lydia E. Pinkham's Vegetable remedies have entirely cured me of all my pains and suffering. I have her alone to thank ful. On the contrary, contraction and gold standard enhance their values, but diminish that of others who are not thus secured. The only way out of most of this, is to get out of all public indebtedness. This is the line of safety for the taxpaying and oppressed and distressed people. Let us hoist the banner of redemption and abolition of all public indebtedness. In this country the people can and should see and seek their own safety.

OF THE CUYAHOGA COUNTY RE PUBLICANS SATURDAY.

Prevail and Rule the Roost. In Cleveland on Saturday morning the delegate convention of Cuyahoga the first test was as to whether the Mc-Kisson or Hanna forces should control the convention by organizing the body, and thereby secure the delegates to the state and judicial convention, and also select the Republican county committee

The tug of war was as to whether F. Taft, McKisson, or C. W. Collister, Hanna, should preside, and in this struggle chaos and mob rule prevailed or some time and the police were called in. "One half hour after the convention had been called to order," says the Leader, "it became a wild, discordant, tumultuous and disorganized mob. The McKisson party finally got control and the Hanna delegates retired and organized elsewhere. "In the meantime," says the Leader, "more for my recovery, for which I am grate- patrolmen were arriving and rushing over chairs and tables in their mad endeavor to reach the platform. They trampled upon the table used by the reporters, using it as a step to the platform. Mr. Collister was violently seized by as many policemen as could secure a hold on him, and thrown bodily from the platform." After Mr. Collister was disposed of,

other prominent Hanna delegates were treated the same way by being tumbled from the platform "or escorted in more dignified manner."

The whole matter as to the delegates will be a question for the conventions to settle, but the Hanna set say if the convention decides against them they will appeal to the Supreme Court. The Hannaites say it was the mayor's police that really did them up, but it seems the Hanna leaders had "twenty stalwart men inside, for the purpose of preserving order."

After the Hanna delegates retired, order soon prevalled and business went on regularly; but previous it was pandemonium in all its glory. The great French advantage in armored cruisers finds its parallel in the Spanish navy. Even in torpedo craft the numerical equality which exists between England and France is repeated with some correctness in the two combatant navies.
